Affordable IT Services For SMBs

We would like our customers to realize the dreams of a comprehensive IT setup at par with any large enterprise but at an affordable price. You can realize maximum value and ROI through our offerings

INFRASTRUCTURE SERVICES

By migrating to cloud computing model, you can leverage the power of world class infrastructure at your fingertips at an affordable price. This will come with security and performance commitment from our providers.

You are no longer required to invest in expensive servers and computing power. Our WI-FI as a service is designed to bring your cost of network infrastructure down by up to 30-70% without compromising on security.

MOBILITY

We can provide mobility solutions and integrate your applications to smart phones to provide you capability to do business on the move at an unmatched price. It can make your business agile, provide you real time capability on the field.

ERP

Our comprehensive ERP suite is specially designed to create delight for our SME customers. Our ERP suite contains Financial, Supply Chain, Planning & Manufacturing, HR & Payroll and Cost Management modules and comes at an affordable price. The key differentiator is not just the price of our solution but flexibility of the product and our willingness to bring possible customizations to suite your business.

COMPLIANCE AND AUDIT

Today hiring a full time CISO is an overhead as we are increasingly under cost pressure to deliver more with less.

We have very experienced CISOs in our expert panel who can work with you at a fraction of the cost of a full time CISO. This brings the services within your reach. We can also fulfill IT Audits and compliance requirements through our network.

IT CONSULTING

You can now avail our consulting services on IT Strategy, Cost optimization, Project Management, Change Management areas. We can also provide training to your IT & business team on Project Management, Cloud and Business and IT alignment. Most of our consulting services are delivered by former CIOs & IT Leaders .
